Softifex

INVENTORY | SALES | ACCOUNT | PURCHASE MANAGEMENT

Run your pharma distribution from one clear screen.

Inventory, sales, purchase, accounts and field force in one software, with a mobile app for your salesmen.

Inventory | Sales | Purchase | Accounts | Mobile App

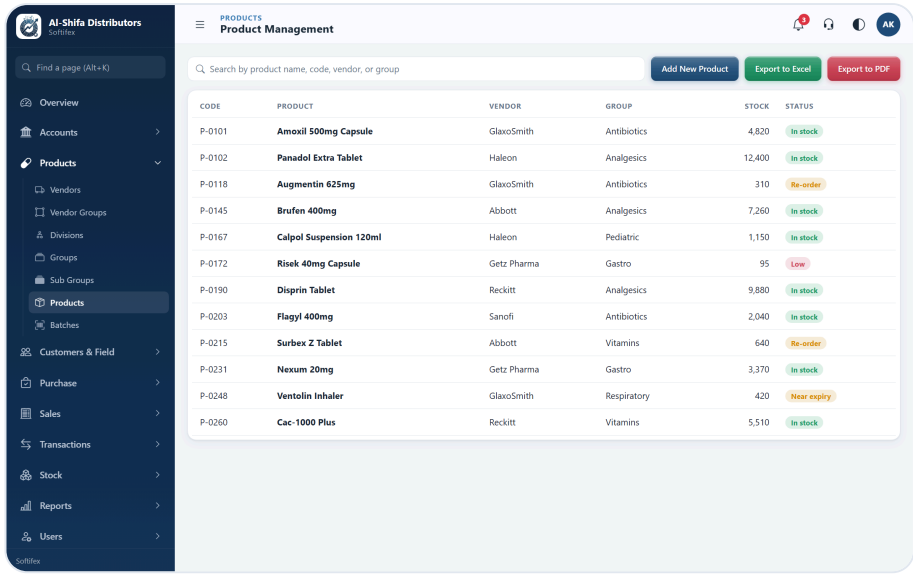

WELCOME

One software for the whole distribution business

Softifex is built for pharmaceutical distributors and wholesalers. Stock, batches, invoices, collections, ledgers and reports live together, so every number you see is the same number your team sees.

- **Batch and expiry aware** - every sale and stock movement is tracked by batch.
- **Built for the field** - salesmen take orders, cash and returns on their phones.
- **Know where you stand** - sales, cash, returns and receivables on one dashboard.
- **You decide who sees what** - page-by-page access for every role.
- **Simple to run** - easy to install, easy to maintain, easy to update.

9
business modules

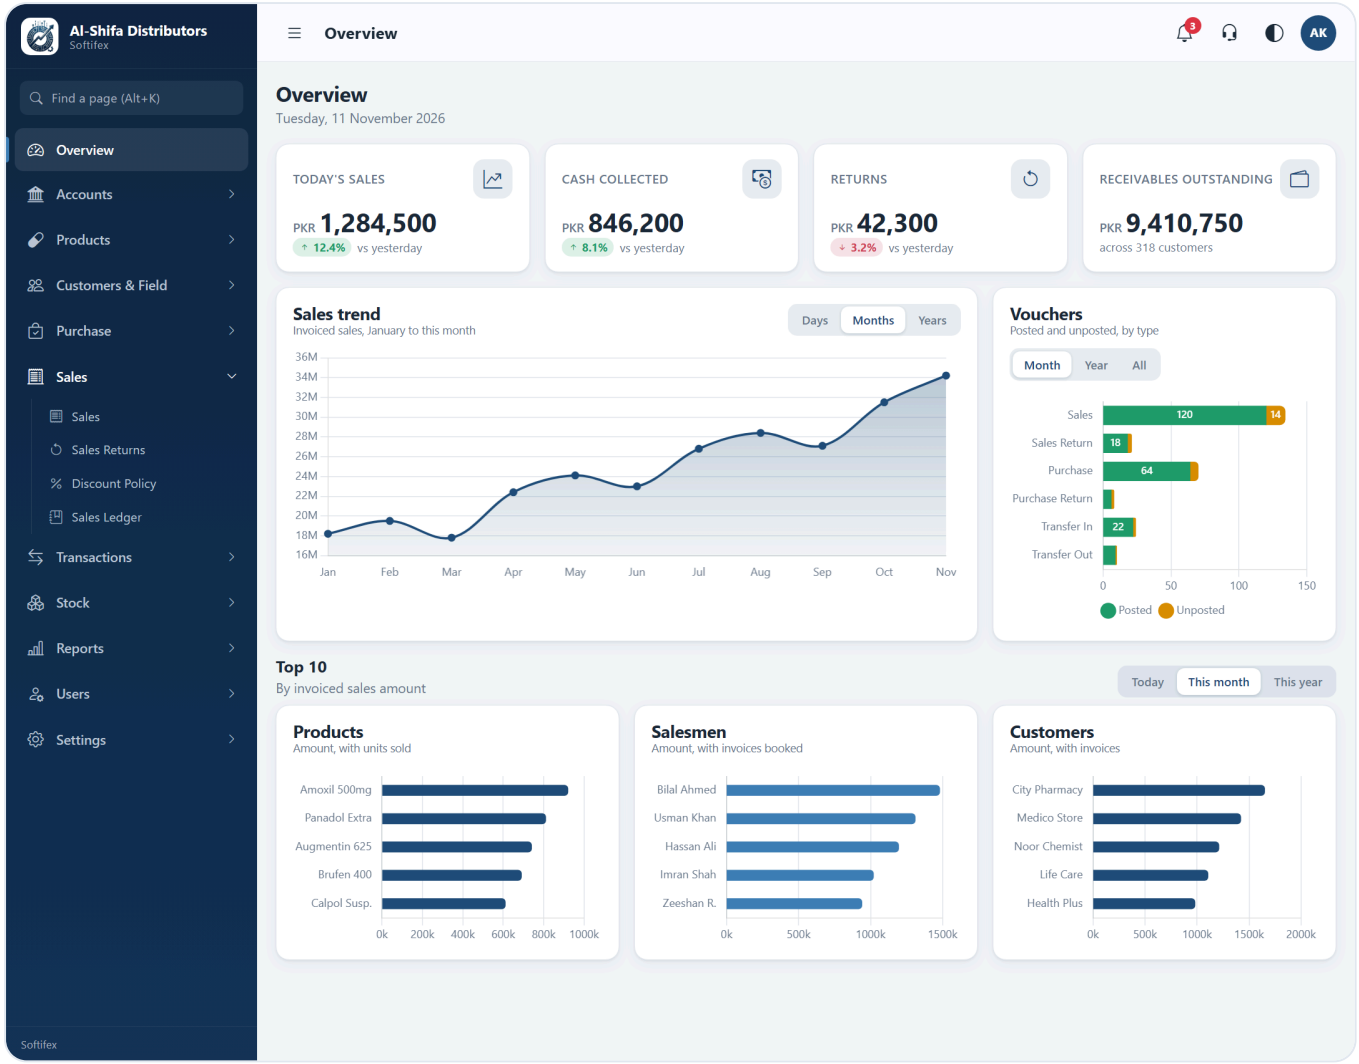

20+
ready reports

2
themes, light and dark

DASHBOARD

Your business at a glance

Open Softifex and see today's sales, cash collected, returns and receivables. Charts and top-ten lists load by themselves, and each person only sees the cards their role allows.

Live numbers

Sales, cash, returns and outstanding with change against yesterday.

Trend charts

Sales by day, month or year, and posted against unposted vouchers.

Top 10

Best products, salesmen and customers for today, this month or this year.

Light and dark

Choose the look that is easy on your eyes.

MODULES

Everything a distributor needs

Nine connected modules. Enter a document once and it flows to stock, ledgers and reports.

Products

Vendors, vendor groups, divisions, groups, sub groups, products and batches with expiry.

Sales

Invoices, sales returns, discount policy and the customer sales ledger.

Purchase

Purchase orders, purchases, purchase returns and stock transfers in and out.

Stock

Live stock, in-transit stock, shifting between locations and a full stock ledger.

Customers and Field

Customers, towns, city routes, salesmen and medical representatives.

Accounts

Chart of accounts, account types and the data ledger for account audit.

Transactions

Field orders, cash collection, manual cash and voucher posting.

Reports

More than 20 ready reports plus a designer for your own layouts.

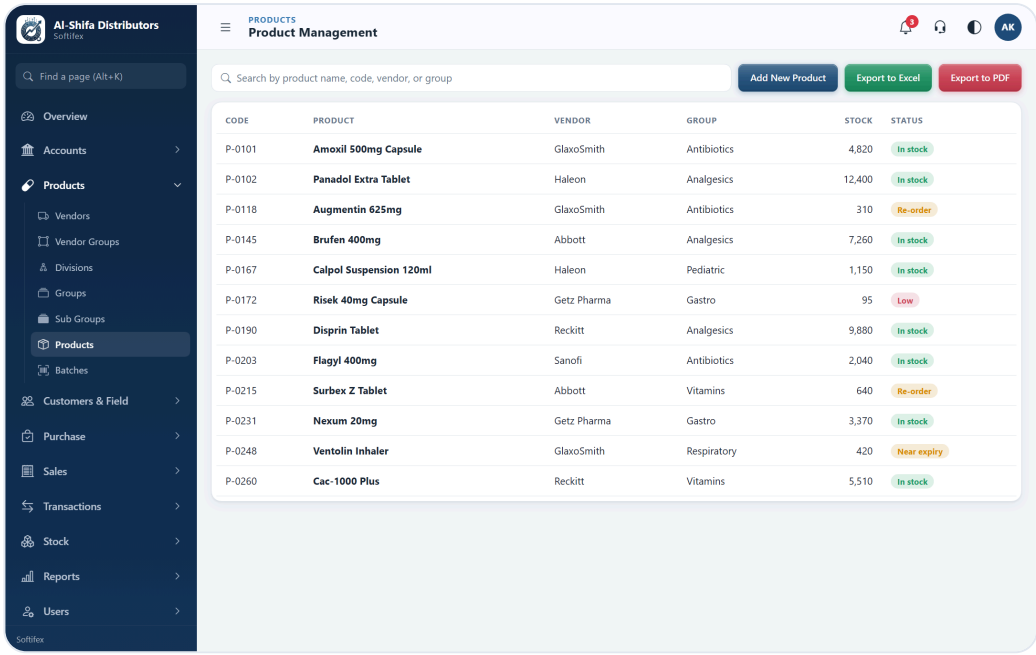

Administration

Users, roles, settings, notifications, tax invoice and backup and restore.

INVENTORY, SALES AND PURCHASE

Control stock from vendor to customer

- Batch-wise stock with expiry, so near-expiry and re-order items stand out.
- Narcotics flag on products for tighter handling.
- Discount policies applied automatically on invoices.
- Sales and purchase returns that correct stock and ledgers.
- Transfers between locations and an in-transit view.
- Stock ledger shows every in and out for every product.
- Tax invoice settings, including FBR invoicing options.
- Export any list to Excel or PDF in one click.
- Fast search on every list, and Alt+K to jump to any page.

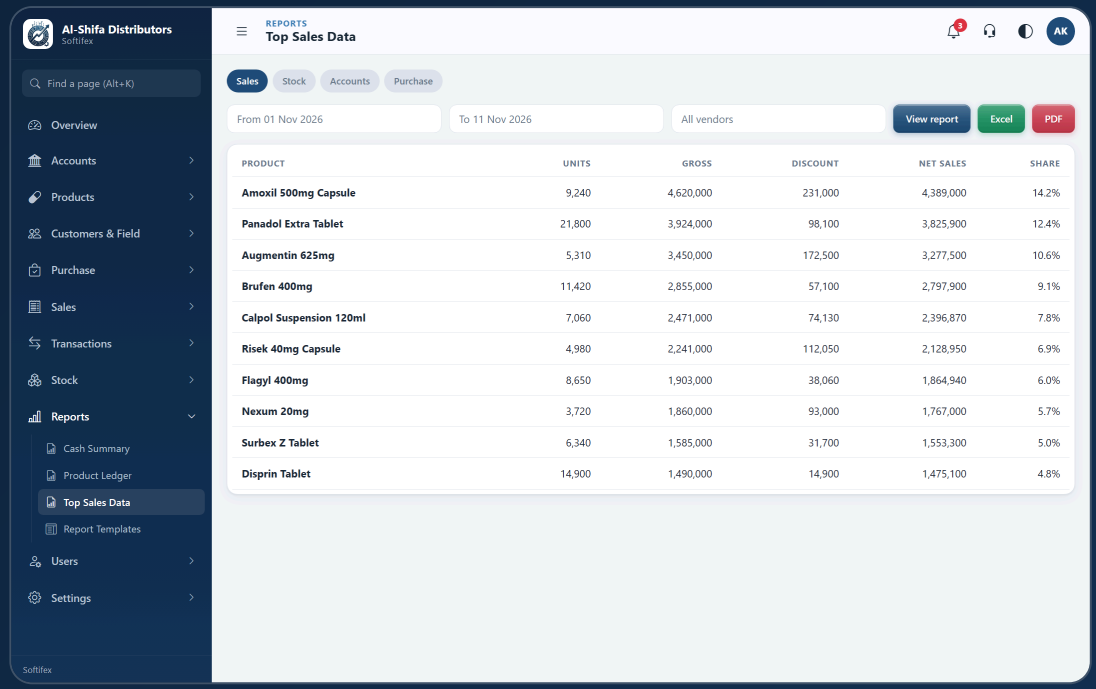

Vendors · Batches · Invoices · Returns · Transfers · Stock ledger

REPORTS

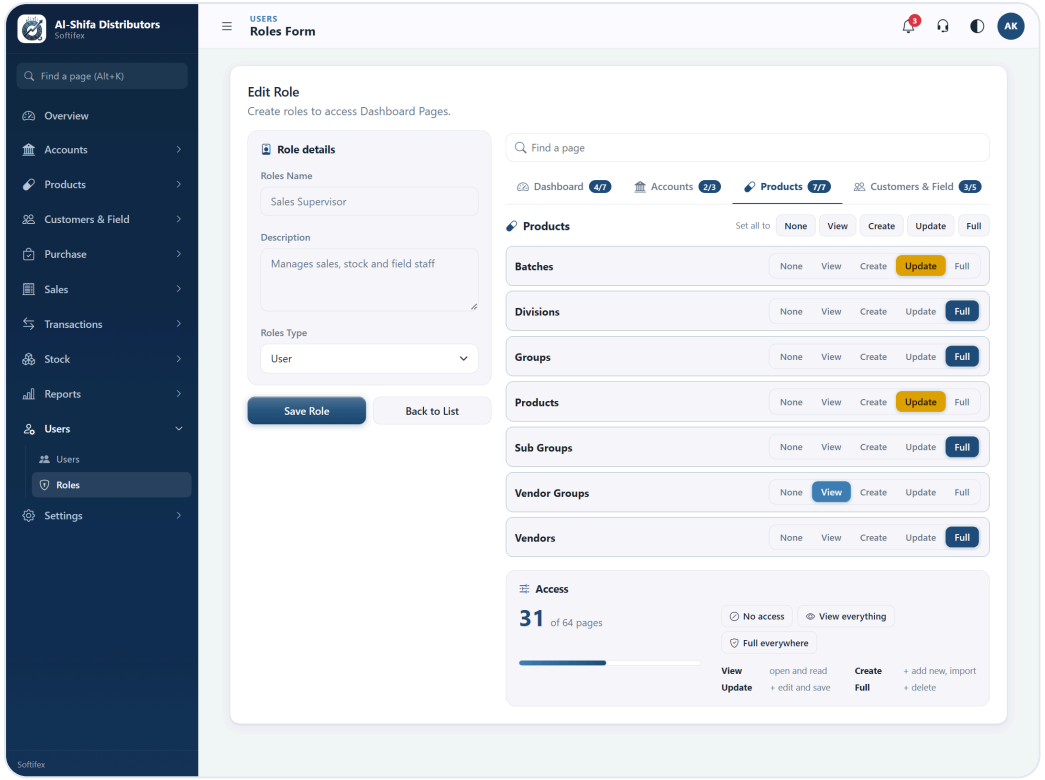

Answers, not just data

Over twenty ready reports cover sales, stock, accounts and purchase. Pick dates, filters and print, or send to Excel or PDF.

- Account receivable
- Area-wise outstanding
- Cash summary
- Credit notes
- Customer ledger
- Daily sales
- Monthly sales by product
- Product ledger
- Purchase by product
- Yearly sales activity
- Stock and re-order
- Top sales
- Transaction summary
- Vendor distribution

- Report designer to shape layouts to your needs.
- Long reports run in the background with progress shown.

SECURITY AND CONTROL

Your data stays yours, and stays safe

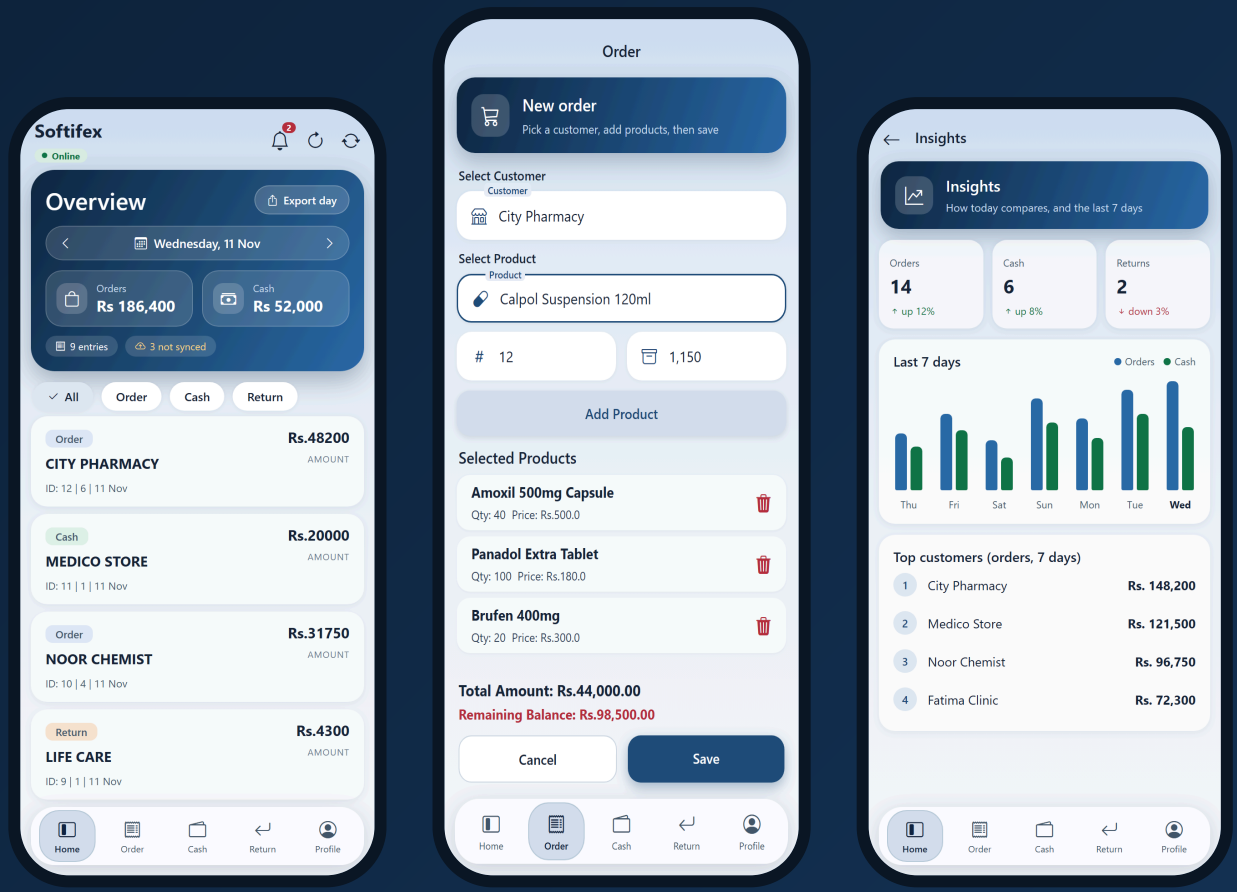

- **Role-based access** - set every page to None, View, Create, Update or Full.
- **Dashboard permissions** - choose which cards and charts each role sees.
- **Protected sign-in** - password protection with account lockout after repeated wrong attempts.
- **Secure sessions** - sessions are managed and signed out safely.
- **Encrypted backups** - manual or automatic daily, every 3 days or weekly, with your choice of retention.
- **Easy restore** - bring a company back from a backup file.
- **Tamper alerts** - administrators are warned when security records need attention, with a recovery console to repair them.
- **Ledgers for audit** - data, sales and stock ledgers trace every entry.

MOBILE APP

Take orders right in the field

The Softifex mobile app puts your salesmen's day on their phone. Orders, cash and returns are saved on the phone and sent to the office with one tap.

- New orders with customer, product, batch, quantity and price.
- Cash collection and returns from the field.
- Works even with a weak connection; sync when ready.
- Today's totals and 7-day insights at a glance.
- Fingerprint or face unlock keeps the app private.
- Notifications and an activity log on the phone.
- Export transactions to a file; light and dark themes.

MADE EASY

Simple to install, simple to keep running

We care about what happens after the demo. Softifex is designed to be set up quickly and looked after with little effort.

Easy installation

A guided installer sets up the software on your computer step by step.

Simple updates

Updates are applied in a few steps and your data stays exactly as it was.

Low maintenance

Automatic backups run quietly in the background, so there is little to look after.

Notification system

Send announcements to your team and see alerts in the bell on every page, on the web and on the phone.

Opening balances

Move in from your old system with a guided opening balances and data migration page.

Import and export

Bring lists in from CSV and send lists out to Excel or PDF.

Fast to use

Page search, keyboard shortcuts and quick lookups save clicks all day.

Friendly support

Help is one click away inside the software, by email or WhatsApp.
